ABOUT US

Launched in 1991, **POTATO Review** very quickly became established as one of Europe's top specialist agriculture journals. Now into our 30th year, **POTATO Review** continues to be regarded as the magazine for the potato industry.

We aim to produce a well-balanced, high quality publication that keeps our readers and clients well informed. **POTATO Review** is circulated largely to registered growers and merchants throughout the UK, as well as other specialist and smaller growers, processors, agronomists, researchers, suppliers and supermarket buyers.

Total distribution is approx. 6000 copies both in the UK and more than 50 countries worldwide. We also have a website, which is well used by the industry, covering international issues.

POTATO Review welcomes information on new products and processes, including technical articles, trials results and case studies. Contributions must be objective and may not be used for promotional purposes without prior agreement. If you have an editorial or news item you wish to submit for consideration please email it to stephanie.cornwallwarnersgroup.co.uk

POTATO REVIEW IS NOW DISTRIBUTED IN BIODEGRADABLE PACKAGING MADE FROM POTATO STARCH BIOPLASTIC

FEATURES

Regular features in **POTATO Review** are designed to reflect seasonal concerns. Early in the year, for example, we look at developments in cultivation and planting techniques; in spring and early summer we aim to cover blight programmes, integrated pest control and irrigation. In late summer and autumn we offer updates on harvesting and handling machinery and the latest storage technology. We will also cover industry events.

Each issue has a guaranteed requested readership - a 100%

named circulation: the perfect targeted distribution for your marketing message.
