

CRUEL SEAS™

Cruel Seas is a fast-paced 1/300 scale tabletop game recreating the swirling naval dogfights taking place on the seas around the world in the dark days of the Second World War.

Powerful, well-armed boats manned by skilled crews stalked enemy shipping lanes, lying in wait for an unsuspecting target to present itself. With a roar of engines the motor torpedo boats surge forward, opening up with tracer fire from an arsenal of machine guns and autocannons and their deadly payload of torpedoes to deal a devastating blow to their prey.

The Strike Fast, Strike Hard! starter game contains plastic British and German motor torpedo boats, plastic and card tokens, the rules and a variety of other play aids – everything you need to take to take on your opponents fleet. The range will include further plastic, resin and metal ships, aircraft and scenery.

This booklet contains the assembly instructions you need for your plastic British Vosper MTBs and German S-Boats, as well as the painting guides and paint recommendations.

So, fire your engines, ready your weapons and prepare to dominate the cruel seas!

BRITISH VOSPER

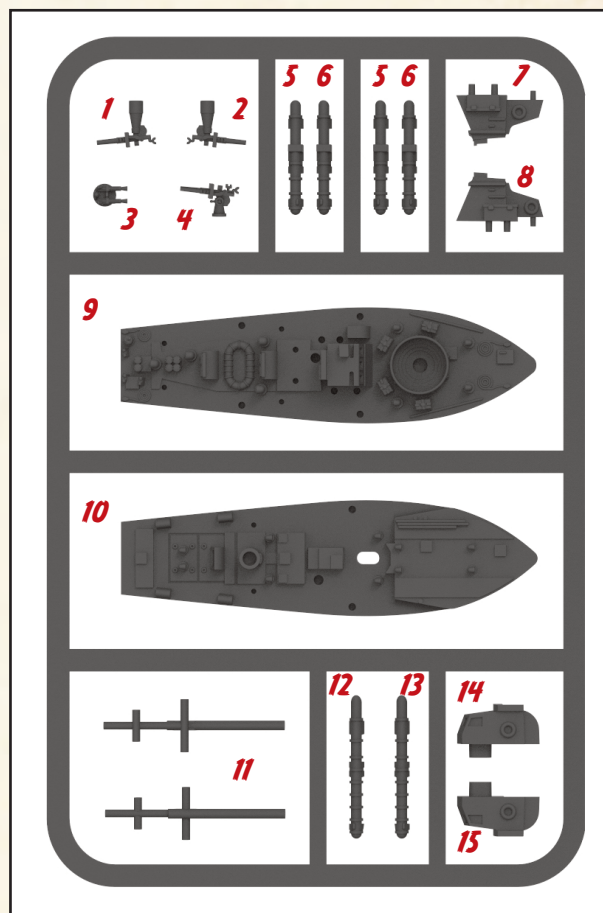

Follow this simple guide to building your British Vosper MTBs.

Carefully remove each component from the frame with clippers or a craft knife. Trim off excess plastic before assembling. Test fit all parts before applying glue.

We recommend using polystyrene cement to assemble the kit, and to use this in a well-ventilated area.

Keep tools, glues, paints and small components away from children. Warlord Games recommend this kit for ages 14 and over.
